RPI GRADE TRACKER

What it is (presented last time)

- Java Applet
- Tracks past grades
- Calculates current grade
- Predicts worth of current work
- Variety of calculations
- Handles the cornucopia of syllabi curveballs
- Helps students make informed decisions

Progress

- Simple user interface is key
- Played with different configurations
- Have framework implemented

Working on

- Template import/export
- Collecting syllabi
- Visuals (improve GUI)
